

Welcome to Mr Onthemoon's

Do it yourself Nativity Scene

You will need :

Thin Card

Glue

Scissors

A printer

Hands

and a bunch of other stuff I cant remember right now

You can :

Stick them on the card, then cut them out (dots! dots!) and make a Nativity! Yeah!

OR

You can :

Stick them on the card, cut them out, put a hole in the top and hang them on your tree! On the tree!

OR

You can :

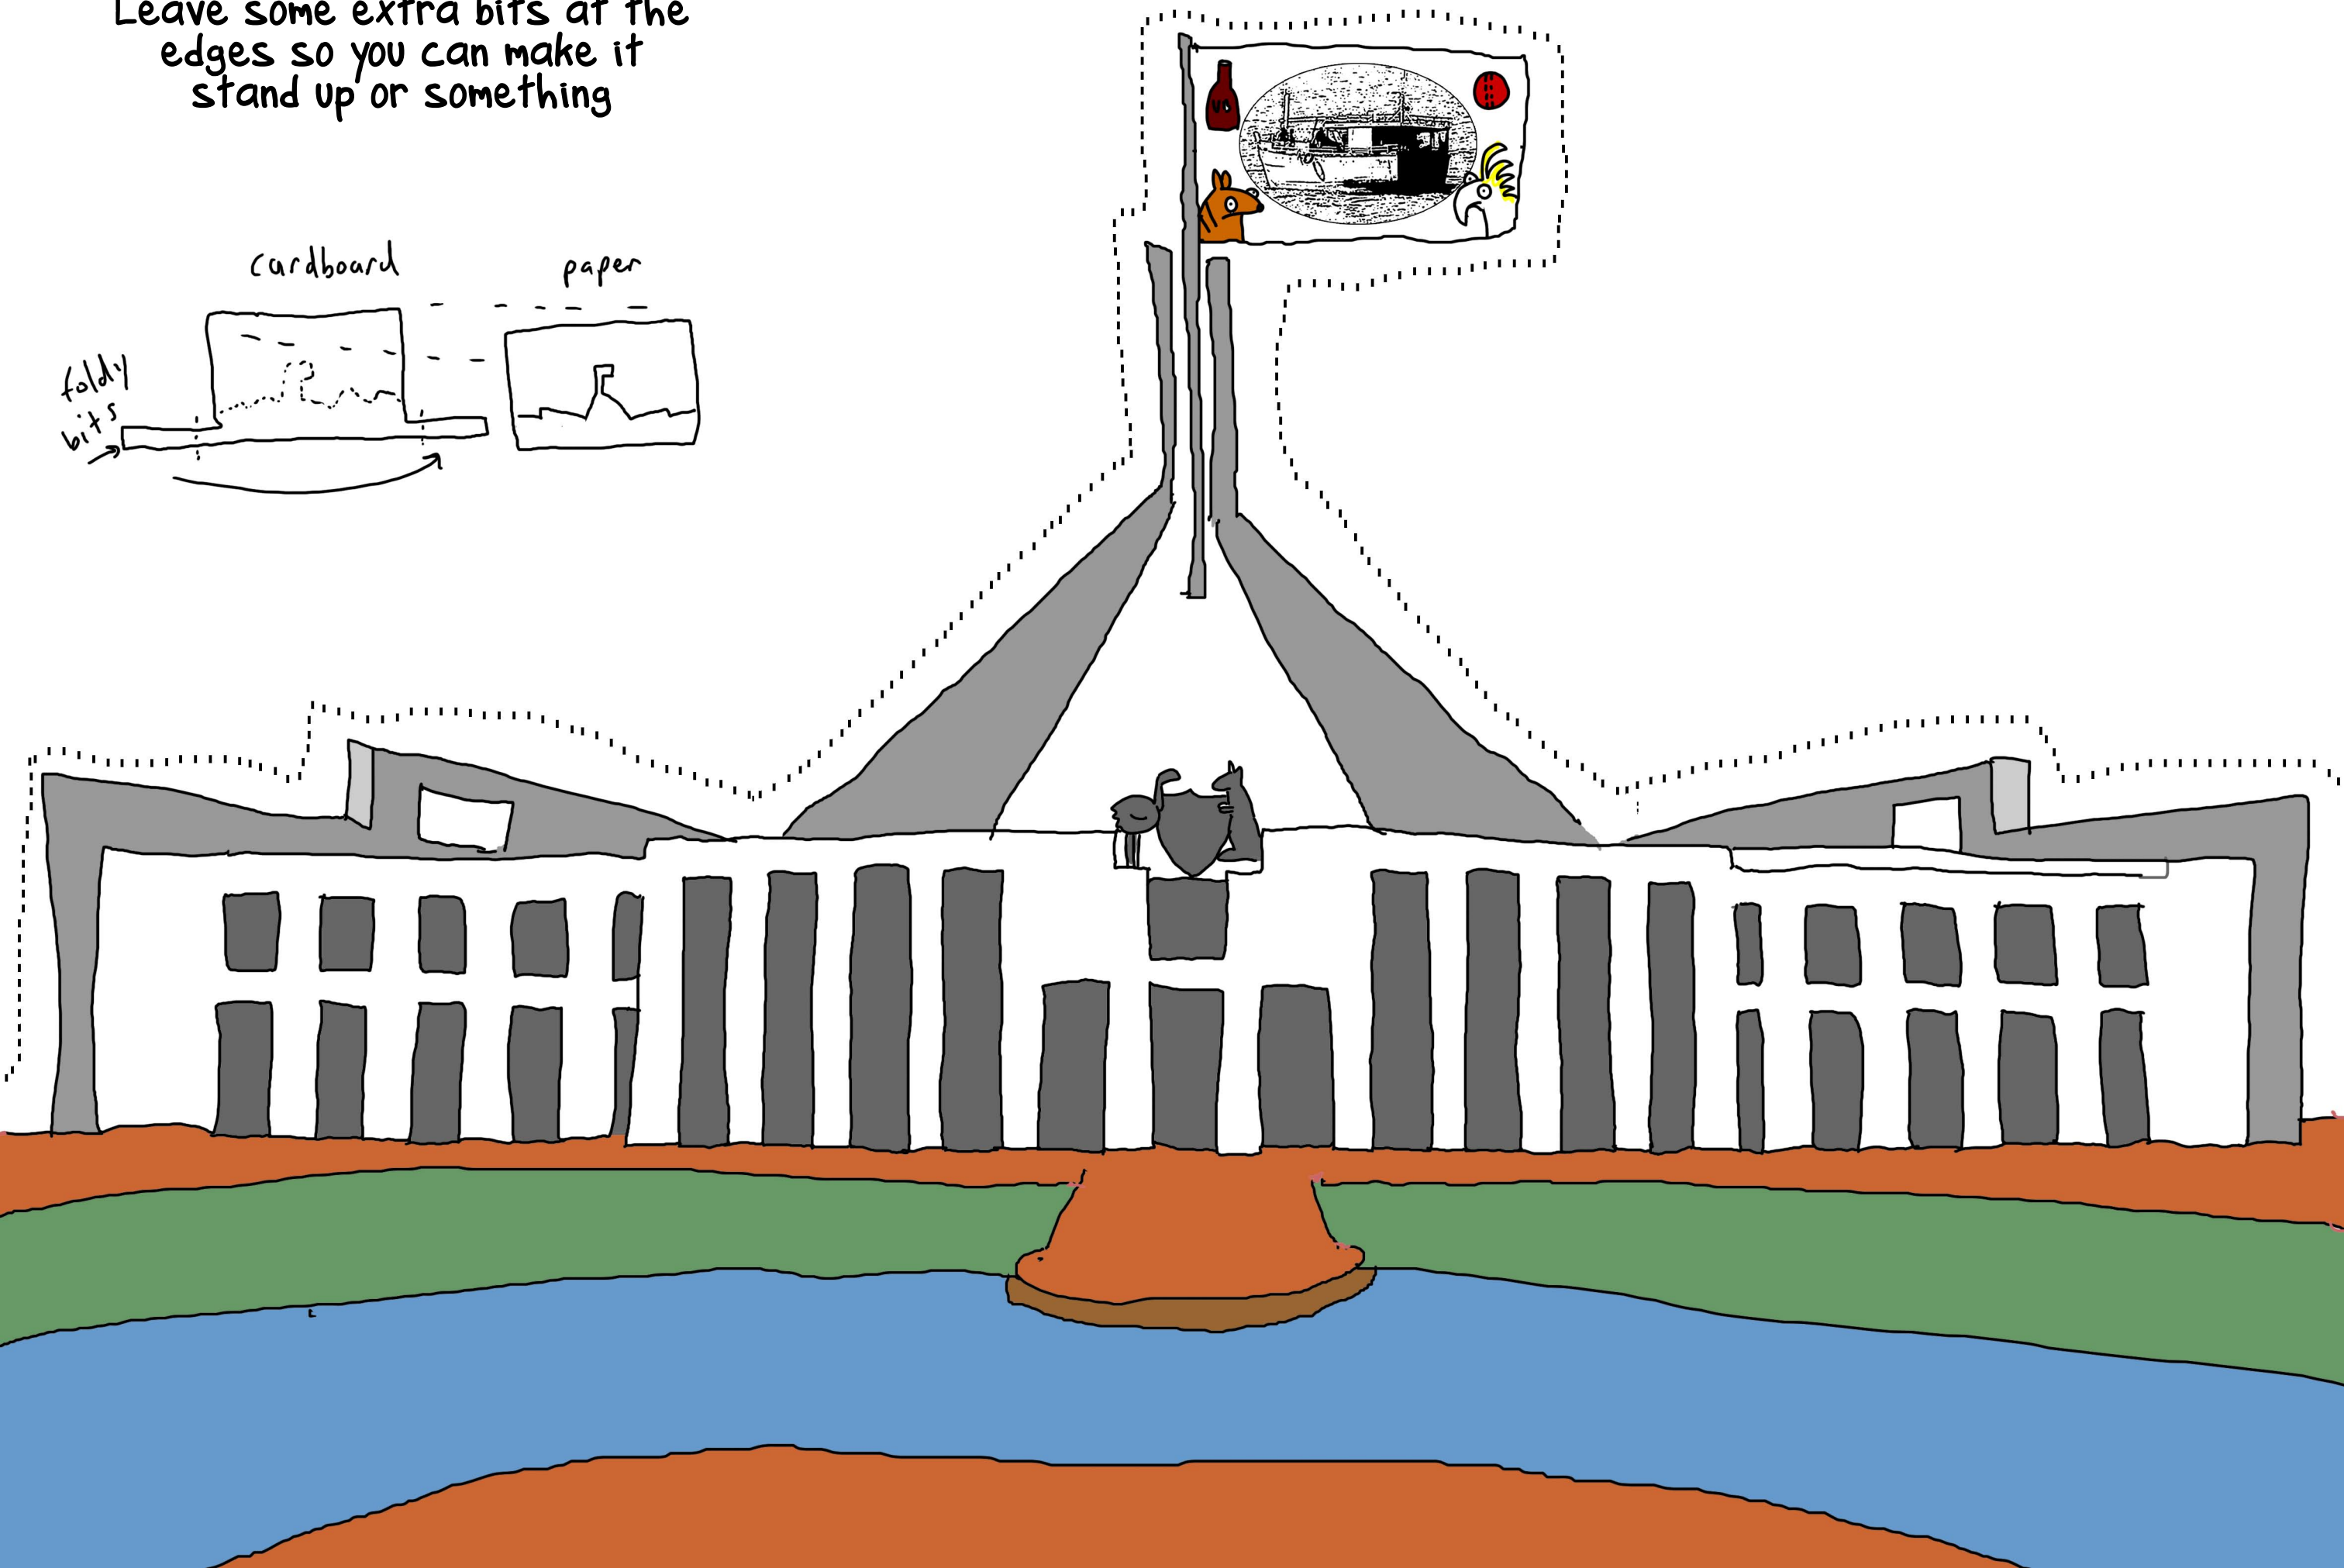

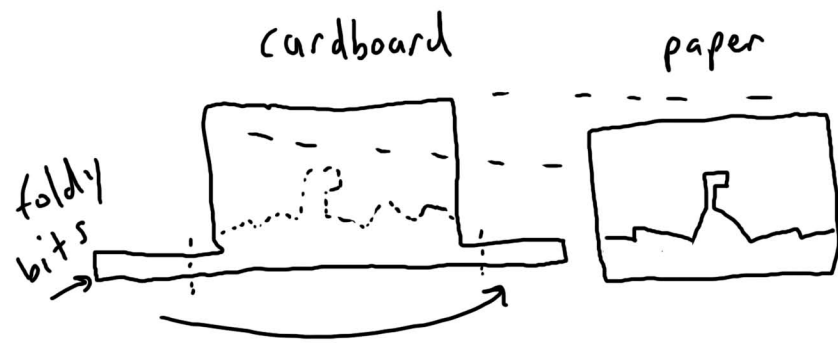

Print them all out, lay them out on the floor and roll around on them! Dust bunnies!

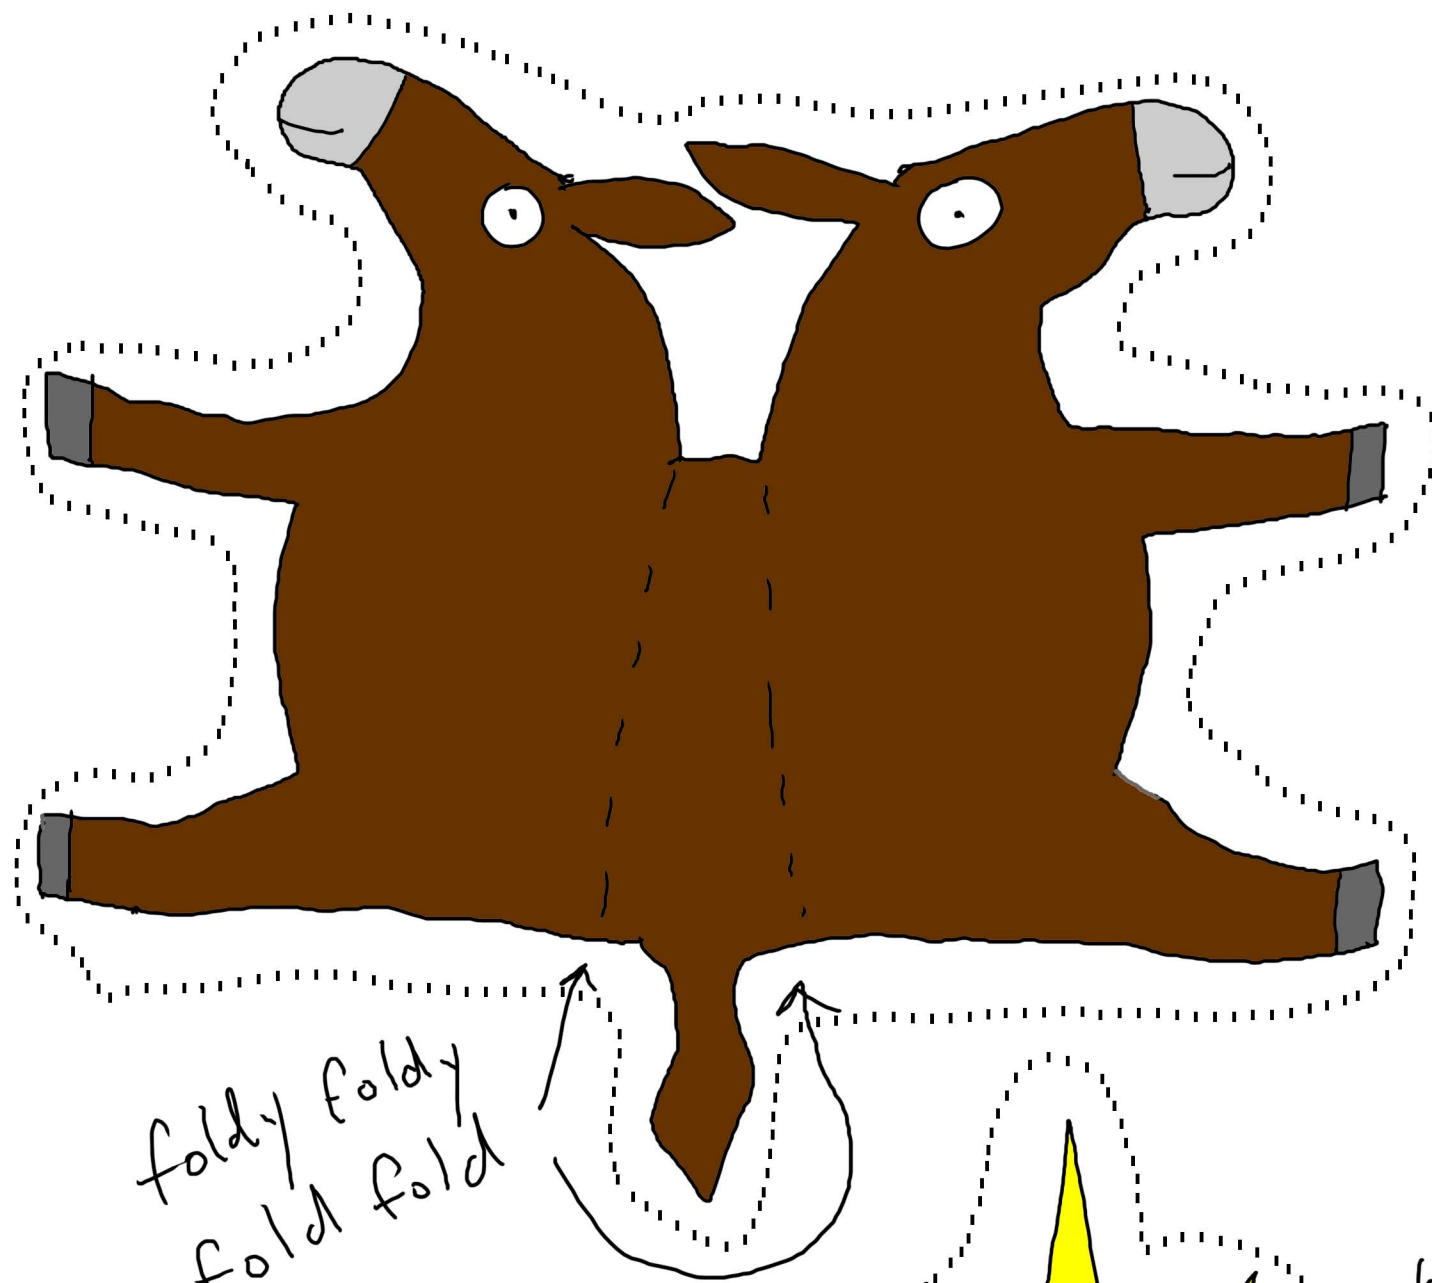

You work it out.

And whatever happens,

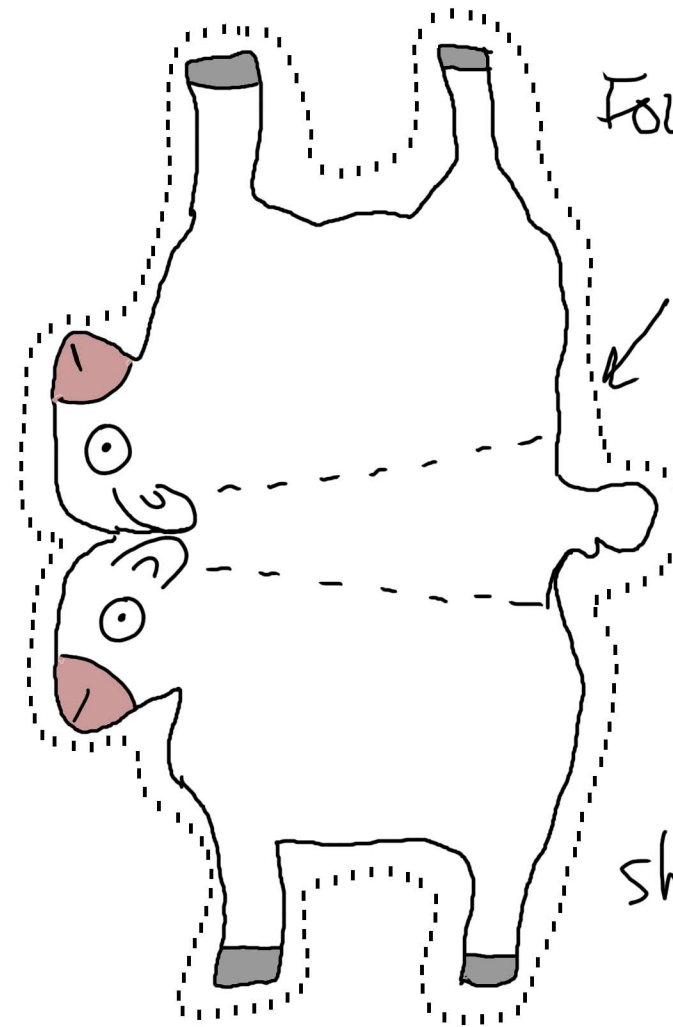

Merry Christmas

Leave some extra bits at the edges so you can make it stand up or something
