Hello everyone.

Attached is a copy of the 2011 Right To Life Hike brochure.

The hike aims to raise funds for the Right to Life Pregnancy Counselling Australia service.

The targets are 50 people participating in the walk, each raising \$1000.

This is the first year RTL has tried a life Hike and the route covers some of the most magnificent parts of the Australian coastline, which is a very exciting prospect, and RTL hopes to attract young people especially (and of course older ones! ) to participate.

Please call [REDACTED] if there is anything more you wish to know.
